SAFETY AND WARNING INFORMATION

General Safety Rules

WARNING: Read the instructions fully before using the product for the first time. Failure to follow the instructions may result in fire, electric shock and or serious injury.

Please Retain These Instructions For Future Use And Referral

- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

Children should be supervised to ensure that they do not play with the appliance.

- Do not use the soldering iron if the supply cord or other important parts are damaged.
- Do not use the iron in the vicinity of flammable liquids or materials.
- Never use an electrical appliance in the rain, wet areas or when your hands are wet with water or other liquids.

Note: - Using an electrical appliance under these conditions seriously increases the possibility of electric shock.

- Never leave a soldering iron unattended.
- It is recommended to wear protective clothing, contain long hair and wear safety glass.
- Always turn the power supply off when leaving the tool in unattended situations, or if there is a power failure situation.
- Do not operate the machine while under the influence of drugs, alcohol or any medication.
- Always operate the equipment in a well ventilated area.
- When using electrical equipment outdoors we recommend the use of a residual current device (RCD) for your protection.

NOTE: Your personal safety is your responsibility

Operating Instructions

Before using your soldering iron please ensure that the tip is properly positioned and secured by it retaining screw.

Soldering tips must only be removed from their holder when cool and the retaining screw has been loosened.

Do not operate the soldering iron without the tip being fitted correctly.

Always place the soldering iron on its holder to avoid burns to users & property, and for general safety reasons.

This equipment is intended for use with soft solder only.

Technical specifications:

Voltage: 230 Vac
Frequency: 50Hz
Rated power: 40 watt
Class 1

IMPORTANT

This appliance must be earthed.

The wires in the mains lead are coloured in accordance with the following code:

Blue - Neutral Brown - Live Green and Yellow - Earth
As the colours of the wires in the mains lead of this appliance may not correspond with the Coloured markings identifying the terminals in your plug, proceed as follows:

The wire which is coloured blue must be connected to the terminal which is marked with **N**.

The wire which is coloured brown must be connected to the terminal which is marked with the letter **L**.

The wire which is coloured green and yellow must be connected to the terminal which is marked with the letter **E**.

If a 13 AMP (BS 1363) plug is used, a 3AMP Fuse must be fitted, or if any other type of plug is used a 13 AMP Fuse must be fitted, either in the Plug or Adaptor, or on the Distribution Board.

Note: If a moulded plug is fitted and has to be removed take great care in disposing

This product bears the selective sorting symbol for waste electrical and electronic equipment (WEEE).

This means that this product must be handled pursuant to European Directive 2002/96/EC in order to be recycled or dismantled to minimize its impact on the environment.

For further information, please contact your local or regional authorities.

Electronic products not included in the selective sorting process are potentially dangerous for the environment and human health due to the presence of hazardous substances.

Waste electrical products should not be disposed of with household waste.

Please recycle where facilities exist.

Check with your local authority or retailer for recycling advice.
